### MAGS Premium Payment Amount

The monthly premium is assessed at the household level, not the individual level. The monthly premium amount is \$8 regardless of household size. However, this amount can be lowered during the certification period based on healthy habits reported through response(s) to the health survey, or by the response(s) to the treatment needs question by childless adults in the household. The reductions for the monthly premium are as follows:

Premium Amount	Applicable Reductions
\$4	1-person household with that person receiving a reduction 2-person household with both people receiving a reduction
\$6	2-person household with only 1 person receiving a reduction
\$8	1- or 2-person household with no reduction for the household

### Premium Due Dates

CLA BadgerCare+ premiums are due on the 10th day of the benefit month. However, failure to pay the premium will not result in disenrollment until the end of the certification period. Premiums are tied to the certification period, not the calendar year.

Any accrued premium amount the childless adult has not paid will result in disenrollment at the following times:

- Adverse Action of the 12th month of the certification period
- Early Renewals
- BadgerCare Plus termination, either due to ineligibility or because they have de-requested health care
