PREMIUM CALCULATION - 26.5

IF the INDIVIDUAL's Gross income is over 100% premium will be calculated

New CWW Premium Calculation:
Premium Gross Income = Member's total gross earned and unearned income
Countable Net Income = Premium Gross Income less: Members verified IRWE's (a Member's verified OPs (any amount); Current COLA disregard, if applicable
Premium Net Income = Countable Net Income less 100% FPL for group size of 1 • If result is negative, CWW will change to zero
Multiply Premium Net Income by 3% • If Premium Net Income is zero, result will also be zero
Add $25 to the result and round down to nearest whole dollar • If applicable, CWW will add the Independence Account Penalty amount
Result is the member's monthly premium amount
